Welcome

We are honoured to be on your team's consideration list.

Our mission, at QSTC Services Limited, is to provide exceptional customer service and budget friendly innovative security, comfort & safety solutions.

We shall blow your mind.

We are with you every step of the way on projects; both large and small from system design, project management and installation, through scheduled maintenance, repair, upgrades and / or replacements.

Our Solutions

We offer solutions ranging from standalone to integrated electronic and automated security systems for small, Medium and large scale applications in Hotels, Commercials, Governments, Schools, Airports and Private residential properties.

Our products offering is broadly categorized under:

- Fire Detection Alarm & Firefighting solutions
- Electrical Power solution
- Low Voltage Security, Safety & Communication solutions
- IT Infrastructures

The Fire Detection Alarm & Firefighting Solutions

Fire is, most likely, the single most catastrophic event that any property will face. It endangers not only the structures but also the life of the users.

In other words, fire is extremely destructive, disruptive, and costly to people and property. Its protection necessitates both risk awareness and the implementation of an effective protection systems.

The use of a fire detection and alarm system in conjunction with rightly engineered automatic/manual fire fighting solutions are few of the excellent ways to accomplish this.

We design, install and provide after sales service for:

- Addressable Fire Detection & Alarm
- Conventional Fire Detection & Alarm
- Air Aspirating Detection (VESDA / FAAST)
- Automatic Fire Fighting: Novec, FM200, C02, Aerosol, Water-mist, etc
- Manual Fire Fighting : Various types of Handheld Extinguishers

Electrical Power Solution

We provide quaity and depeendable electrical power solutions for various needs and usages. We support facility managers, building owners and end users - in public, private and government sectors.

Our services include:

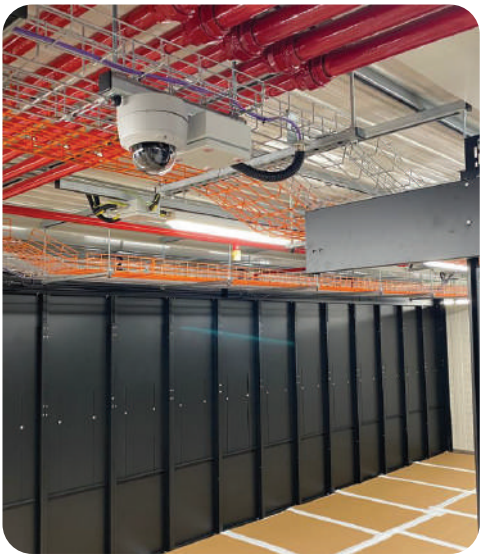
- Lighting & Power installations
- Installation of Electrical Distribution System
- Earthing & Lightning Protection
- LED lighting re-troffit
- Rural & Urban electrification
- Renewable Energy Systems

The Low Voltage Security, Safety & Communication Solution

We offer solutions ranging from standalone to integrated electronics and automated security, safety and communication systems for small, medium and large scale applications in hotels, commercials buildings, schools, airports, hospitals, privates residential and government establishments.

Our solution offerings are wide and include:

- Integrated Access Control
- IP & Analogue Closed Circuit TV
- IP & Analogue Public Address & Sound
- Intruder Detection Alarm & Mass Notification & PID
- IP, Analogue and Hybrid (IP ready) Telephony
- Building Management System (BMS)
- Automatic & Manual Security Barriers & Barricades
- Hotel Lock & Automation
- Xray Baggage & Mail Scanning
- Walkthrough Metal Detection
- Visitors Management
- Home Automation
- Explosive & Poisonous Gas Detection
- Under-vehicle scanning
- Sound Masking
- Central TV Reception & Distribution



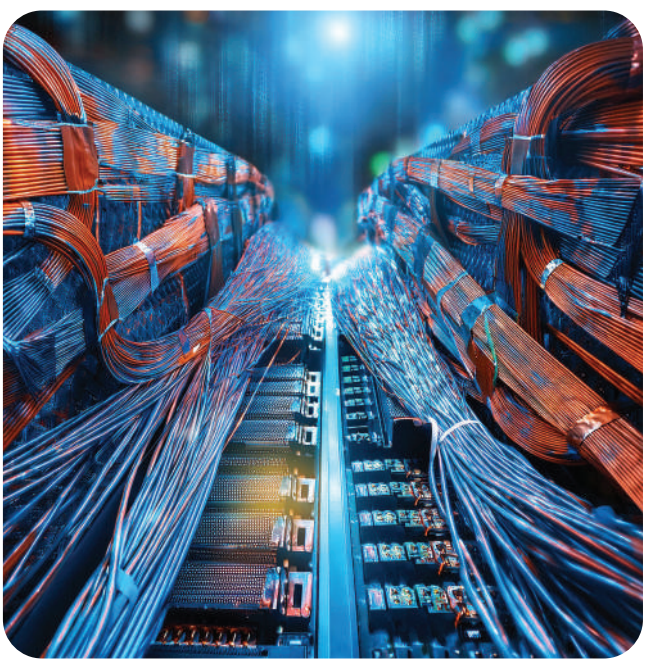
IT Infrastructures

Basically, IT infrastructure is the combined set of hardware, software, network resources, and services required for the operation, management, and support of an organization's functional environment.

Essentially, IT infrastructure is the bedrock upon which the modern organisations sit. Without a robust IT infrastructure, businesses would struggle to maintain productivity, secure their data, and compete in a technology-driven marketplace.

We have a vast knowledge in the provision of IT solutions. We shall comfortably deliver on:

- Hardware components: Server, Storage, Cabling, etc
- Software components
- Networking: wired or wireless



Why Trust Us?

QSTC Services Limited is an electrical services solution provider and electronic security and safety system integrator with a mission to providing personalized, technical, professional services and budget friendly innovative solutions to our customers .

In these areas of our primary business focus, we offers top-notch solutions and professional support.

We are able to deliver on the above because we have:

Local Expertise:

We are 100% indeginous with nimble team that understand the Nigerian factor and are able to design and tailor solutions that can weather the storm.

Customizable Solutions:

We listen to our customers and come up with fit-for-purpose solutions that meet their needs and budget as oppose to off-the-shelf offers given by others - especially foreign based contractors.

Rapid Response:

The fact that we are local & nimble has made our response to issues arising from the use our systems faster.

Experience:

Our journey started in the Year 2008 as a company with a very humble but technically strong beginning. We have in our team individuals with over 25 years experience in the building services industry. These experiences are brought to use in the delivery of our projects to the end users.

Relaible Technology:

We partner with top-tier equipment manufacturers like no other and we boast of a sizeable number of factory-trained engineer among our team so that the state-of-the-art technologies we bring can be backed by a sound support team.

Here are some of our technology partners:

Dedicated Customer Service:

Aside from providing our customer service team with comprehensive training on customer service best practises, we have also implemented Customer Relationship management system (CRM) to track interactions, complains and preferences.

Our CRM data has enabled us to provide personalized our interactions with customers and also made us provide tailor-made solutions.

Over the years, we have built relationship and trust with:
